microeconomics 16th edition
mcconnell pdf - Economics (/ É>
k É™ È^ n É' m É^ k s, iÈ• k
É™-/) is the social science that
studies the production,
distribution, and consumption of
goods and services.. Economics
focuses on the behaviour and
interactions of economic agents
and how economies work.
Economics - Wikipedia -
Overview. The Big Mac index
was introduced in The Economist
in September 1986 by Pam
Woodall as a semi-humorous
illustration of PPP and has been
published by that paper annually
since then. Big Mac Index -
